

PAT LOWENHAUPT

I was born and raised in Jackson Heights. I attended school locally at PS 69. IS 145, and Bryant HS in Long Island City. After attending SUNY at New Paltz for my Bachelor's degree I earned a Master's degree from NYU in art education. I am a retired NYC teacher having taught for 30 years. I became a grandmother in 2023.

Soon after moving into the building, in 1991, I became a board member. As a board member of Montclair Gardens Inc., I have gotten to know many wonderful people. I feel the responsibility of a board member. It includes managing the finances while keeping the building in compliance with the city, repairing and updating, securing and keeping aesthetics in mind. Each resident at one time or another needs help solving coop living problems. I like to help out in this capacity.

As a resident, living in a co-op apartment building offers an opportunity to live in a wonderful micro community as one gets to know their neighbors. We act in a civil manner to one another. We are familiar with the rules of the building and abide by them. We maintain a quality of life as it relates immediately to our above, below, left and right neighbors and the common areas of the building. We consider our neighbors, the staff and management by communicating and helping each other in anyway we can.
